Theory of Change

Outputs

Direct results of ncat's activities

Evidence is produced that facilitates change.
Generate

Awareness of ncat, its research and campaigns is raised.
Translate

Metrics

Disabled people participate in a representative CAT panel and directly contribute to ncat's national evidence base

Number of disabled CAT participants (and representation)

Number of disabled CAT participants that maintain engagement - (opt out link)

People in the transport and policy sector participate in the CAT panel

Number of transport sector CAT participants, by:

- Transport provider
- Local government
- Central government
- Transport authority
- Community enterprise
- Unknown

Number of disabled CAT participants that engage in ncat's surveys / research

Disabled people and people in the transport and policy sector participate in research / co-production projects and events.

Number of disabled people that participate in
a) qualitative research,
b) specific co-production activities

Number of people that complete ncat's surveys / research, by stakeholder category

Number of research projects

The public are increasingly made aware of ncat and its campaigns through press, media, radio, social media, website and events

ncat events - number of events (hosted and attended)

ncat events - registrations

ncat events - attendees

Press, media, and radio – number / reach / sentiment of stories about ncat, by region/nation

LinkedIn - engagement / impression save.

X (formerly Twitter) average engagement / impressions

ncat website – number of visitors (top 5 pages)

ncat website – average engagement time

Number of knowledge products developed

Intermediate Outcomes

Changes influenced

People understand the need for accessible transport

Metrics

People understand the purpose and remit of ncat (all stakeholders)

People are aware of ncat's research and campaigns, and recommend it to others - ncat website, visitors to research page

Disabled people recommend the CAT panel to others

People are aware of ncat's research and campaigns, and recommend it to others - CRM contacts

Disabled people recommend the CAT panel to others

People in the transport and policy sector recommend the CAT panel to others

People feel they have contributed to ncat research and ncat's research was:
- delivered in a way that was meaningful and relevant
- will lead to change

People have a better understanding of barriers to accessible transport and disabled people's experiences based on ncat's research and campaigns

People have an improved attitude about the importance of accessible transport

People believe that ncat's research and campaigns are good quality, accessible and relevant

Outcomes
Changes influenced

Disabled people have informed improved transport legislation, policy and services through ncat.

Transport is more accessible for disabled people, through ncat's projects.

The disparities between the experiences of disabled people and non-disabled people are reduced through ncat's projects.

Number of new or improved legislation, policies, services, products or solutions ncat / CAT panel members have input into

Transport is more accessible, by mode

Time spent journey planning is reduced (average for disabled people and non-disabled people)

Policy makers, transport operators and authorities can demonstrate that they have changed policies, guidance or services as a result of ncat's research

Transport is more accessible, by geography

People feel they have contributed to ncat research and ncat's research was:
- delivered in a way that was meaningful and relevant
- will lead to change

Transport is more accessible, by geography

Time to travel / travel duration is reduced (average for disabled people and non-disabled people)

Travel frequency is increased (average for disabled people and non-disabled people - transport accessibility gap)

Metrics

About ncat

The National Centre for Accessible Transport (ncat) works as an Evidence Centre developing high quality evidence, best practice and innovative solutions to inform future disability and transport strategy, policy, and practice by:

- Engaging with disabled people to better understand their experiences and co-design solutions
- Amplifying the voices of disabled people in all decision making
- Collaborating widely with all transport stakeholders
- Demonstrating good practice and impact to influence policy

ncat is delivered by a consortium of organisations that includes Coventry University, Policy Connect, The Research Institute for Disabled Consumers (RiDC), Designability, Connected Places Catapult, and WSP. It is funded for seven years from 2023 by the Motability Foundation.
